Appendix D – Common Record Crosswalk

Introduction

Notes:
Borrower information translation is dependent on award type. If the DL is a Subsidized or Unsubsidized loan, then the Borrower information translates to the student person information. If the DL is a PLUS, then the Borrower information translates to the borrower person information.

** Student information translates to the student person information.

*** These field values have changed from legacy record layouts, but have similar functions/names. Please refer to Technical Reference for additional information on content value/ or changed business process.
